

A BIRDERS' GUIDE TO MISSOURI PUBLIC LANDS

LOUTRE LICK ACCESS-UPDATED 12/16/08

Edge Wade: edgew AT mchsi.com

163 acres Montgomery Co. DeLorme 39, C-6/7

Directions: From I-70 Exit # 170 (Mineola exit), go south on Rt. J to Mineola, then west on Rt. N about one mile to a left turn onto CR 278 (a.k.a. Graveyard Hill Rd.) for about 3/4 mile to area sign (on the left).

When to Visit/Species to Expect: Anytime for typical bottomland and grassland species in expected season. Spring migrants are good near the river.

Features of interest to birders: Entrance road transects old field habitat with a good variety of grassland and shrub species. Canoe launch provides access to the Loutre River. Parking area offers an opportunity to listen and watch for riparian corridor species.

Toilets: None

Camping: Designated primitive area

Hazards/Limitations: Overgrown two-track is the only access to the excellent riparian habitat upstream from the parking area at the canoe launch.

Nearby Birding Sites: Graham Cave SP, Danville CA, Whetstone Creek CA
